

# Stairwell Windows Forwarder 1.5.1 Release Notes

Version: 1.5.1.886

Date: Mar 8, 2024

## Bug Fixes

- Fixed Updating the forwarder from the Stairwell platform for version 1.4.0. When updating from 1.4.0 to 1.5.1, the forwarder will uninstall 1.4.0, and create a scheduled task that will complete the 1.5.1 installation after a reboot.
